http://www.wordle.net/	Vocabulary manipulation
http://prezi.com	Web based version of Power Point
http://www.wikispaces.com	Allows students to create webpages/wikis
www.xtranormal.com	Cartoon/Animation site
http://www.picassohead.com	Head creation artsy – great for descriptions

Audacity relatively simple program that allows voice recording to practice pronunciation/speaking.

***All are free sites and can be very useful to either the students for projects or you for creating an exemplar of what you are trying to teach or have the students produce.**
